

**June 23, 2008 – Announcement**

---

---

**From:** Margot R. Millar, Executive Director  
Commission on CLE

**To:** Delaware Attorneys  
CLE Coordinators  
CLE Providers and Sponsors

**Subject:** Announcement of New CLE Software System

---

---

In keeping with our efforts toward continuous improvement, we are in the final stages of development for a new CLE software system.

The new system will further automate the CLE processes, including on-line program applications for attorneys and on-line view of transcript information.

These improvements will provide Delaware attorneys with greater access to their information, and allow for timely and efficient management of their transcript data.

In addition, these improvements will allow Sponsors and Providers to submit on-line entry of program applications and attendance reporting, and the ability to update individual contact information. It will also provide for more timely and efficient management of their program and attendance data.

Our planned “go-live” date is Tuesday, July 22, 2008.
