Re: Wilmington Medical Associates PA v. Charles A Esham

Civil Action No. 8184-VCG

Dear Counsel:

At the conclusion of the Oral Argument on the Motions to Confirm Admissions and to Compel Discovery, I granted the Motions and indicated that I would shift fees related to those Motions. I requested that the Plaintiff's counsel submit an affidavit detailing the fees incurred in connection with the Motions, and I informed the Defendant's counsel that any objection to the fee award should be made within one week. The Plaintiff's counsel submitted a detailed affidavit of fees and costs incurred on June 14, 2013. I have received no objection from the Defendant or counsel challenging the fees to date. Nonetheless, I have independently reviewed the fee request to ensure that the fees incurred in connection with the Motions are reasonable. Plaintiff's counsel incurred \$1,692.00 in fees performing legal services and \$1,224.00 in travelling to the oral argument.

Plaintiff's counsel's detailed descriptions of the time spent performing each task has satisfied me that the fees incurred are reasonable. Therefore, the Plaintiffs' fees, totaling \$2,916.00, shall be payable by the Defendant. The parties should submit an appropriate form of order implementing my decision.

Sincerely,

/s/ Sam Glasscock III
