2020 Averages: We bill for our time and expenses. Cost of service is a function of the complexity and difficulty of the situation presented. Here are 2020 *monthly* averages:

- Monthly Mean (total fees divided by total clients) was \$226.00.
- Monthly Median (half paid more, half less) monthly cost of services was \$167.00.
- The most expensive case averaged \$860.00 a month.
- The least expensive case averaged \$43.00 a month.

What does all that mean?

While some cases are labor intensive and expensive, the majority are not. We typically are called upon because things are not going well. In the normal pattern the cost of services declines over time as things become more orderly.
