Jake Hollis, Clinical Nurse Liaison for Season's Hospice and Palliative Care provided an overview of service to Commission members. The organization was founded in 1997 and currently provides service to eighteen thousand clients in eighteen states (as of 2014).

Season's has an inpatient unit at Christiana Care Health Services (CCHS) which provides twelve private beds. The average number of days for inpatient care is currently 4.9 days.

Client services are billed through Medicare part A, Medicaid or private pay. Routinely, a nurse (medicines, bandage changes, etc) visits a client 1-2 days a week and Certified Nursing Assistant (CNA) assists with activities of daily living (bathing, dressing, etc).

Season's contracts with five skilled facilities in Delaware to provide respite care (up to five days).

The organization provides Palliative and Hospice Care. Palliative Care is when aggressive care treatment is provided versus Palliative Care where an individual's life expectancy is < 6 months so the client is provided comfort care.

CMS requires that prior to the beginning of a clients 3rd benefit period, and prior to each subsequent benefit period, a hospice physician or hospice nurse practitioner (NP) must have a face-to-face encounter with the individual to determine continued eligibility of the individual for hospice care and attest that such a visit took place.
